1 PUBLIC SCHOOL SUPPORT:

2 (1) State equalization guarantee distribution:

3 The purpose of public school support is to carry out the mandate to establish and maintain a uniform 4 system of free public schools sufficient for the education of, and open to, all the children of school 5 age in the state.

6 Appropriations:

7 Other 4,421,302.8 1,500.0 (a) The rate of distribution of the state equalization guarantee distribution shall be based on a program 8 9 unit value determined by the secretary of public education. The secretary of public education shall 10 establish a preliminary unit value to establish budgets for the 2025-2026 school year and then, on 11 verification of the number of units statewide for fiscal year 2026 but no later than January 31, 2026, 12 the secretary of public education may adjust the program unit value. In setting the preliminary unit 13 value and the final unit value in January, the public education department shall consult with the

14 department of finance and administration, legislative finance committee and legislative education study 15 committee.

16 The general fund appropriation to the state equalization guarantee distribution includes fifty-six 17 million five hundred two thousand three hundred dollars (\$56,502,300) contingent on enactment of 18 legislation of the first session of the fifty-seventh legislature amending the Public School Finance Act 19 to replace at-risk program units with program units based on the family income index, program units for 20 students identified as English learners and program units for students who have exited English learner 21 status, and to increase the sixth-grade formula factor to one and one thousand four hundred seventy-five 22 ten-thousandths.

23 The general fund appropriation to the state equalization guarantee distribution includes sufficient 24 funding to provide all affected employees an hourly salary of at least fifteen dollars (\$15.00). 25 The general fund appropriation to the state equalization guarantee distribution includes one

hundred thirty-five million one hundred twenty-nine thousand six hundred dollars (\$135,129,600) to provide a four percent salary increase to all public school personnel.

3 For fiscal year 2026, if the program cost made available is insufficient to meet the level of state 4 support required by the special education maintenance of effort requirements of Part B of the federal 5 Individuals with Disabilities Education Act, the public education department shall reduce the program 6 cost and state equalization guarantee distribution appropriation in an amount sufficient to cover the 7 projected shortfall and distribute that amount to school districts and charter schools in proportion to 8 each school district's and charter school's share of the total statewide program cost to meet the level 9 of support required by Part B of the federal Individuals with Disabilities Education Act for fiscal year 10 2026. The public education department shall reset the final unit value and recalculate each school 11 district's and charter school's program cost for fiscal year 2026.

12 The general fund appropriation to the state equalization guarantee distribution includes fifty-five 13 million dollars (\$55,000,000) for school districts and charter schools to purchase culturally and 14 linguistically appropriate instructional materials for eligible students, including dual-credit 15 instructional materials and educational technology.

16 The general fund appropriation to the state equalization guarantee distribution includes fifty-nine 17 million dollars (\$59,000,000) for school districts and charter schools to meet teacher mentorship 18 requirements pursuant to Section 22-10A-9 NMSA 1978, create an educational plan pursuant to Section 22-8-19 6 NMSA 1978, provide scientifically based literacy programs pursuant to Section 22-13-29 NMSA 1978 and 20 Section 22-13-32 NMSA 1978, provide career technical education programs pursuant to Section 22-1-12 NMSA 21 1978 and implement the community school framework pursuant to Section 22-32-6 NMSA 1978.

The public education department shall monitor and review the operating budgets of school districts and charter schools to ensure the school district or charter school is prioritizing available funds to those functions most likely to improve student outcomes. If a school district or charter school submits a fiscal year 2026 operating budget that, in the opinion of the secretary of public education, fails to

prioritize funds as described in this paragraph, the secretary of public education shall, prior to approving the school district's or charter school's fiscal year 2026 budget, direct the school district or charter school to revise its submitted budget or shall make such revisions as required to meet the requirements of this paragraph.

5 The general fund appropriation to the public school fund shall be reduced by the amounts
6 transferred to the public school fund from the current school fund and from federal Mineral Leasing Act
7 receipts otherwise unappropriated.

8 The other state funds appropriation to the state equalization guarantee distribution includes
